This year the claim devised by Claudio Cecchetto to inspire the 19th edition of the Summer New Year's Eve is: 'Weekend Dance', which will see Romagna transformed into the biggest dance floor in Italy. And as usual, on Friday night at midnight, at the same time all over the Riviera, there will be **fireworks displays**, which will colour the sea and sky in front of Rimini beach

Music from the 60s, 70s, 80s, 90s and 2000s will have everyone dancing with their feet on the sand all lit up by a ceiling of stars. The established Notte Rosa formats will also be making an appearance during this magical evening: Un Mare di Vino, Un Mare di Fuoco and a romantic stroll along the seashore. An evening full of excitement with dancing, fire-eater and dancer performances and, of course, delicious food, with the fireworks closing this experience, like every year.

things to see exhibitions

4 MAY - 28 JULY 2024 **RIMINI, VARIOUS VENUES** **BIENNALE DEL DISEGNO RIMINI**

Fourth edition: "Ritorno al Viaggio, dal Grand Tour alla fantascienza"
One of the things to see in Rimini in this summer of 2024 is definitely the Design Biennial, which is back after Covid setbacks with its formula of widespread exhibitions in various cultural spaces in the old town. A return to the theme of Travel in a city like Rimini, which has often been a destination for travel and which has built its identity, values and culture on hospitality. In the 12 exhibitions located in various venues - Museo della Città, Biblioteca Gambalunga, Palazzo del Fulgor e Castel Sismondo - it exhibits more than 1,000 drawings on display at the same time. These come from important international institutions, such as the Real Academia de Bellas Artes de San Fernando in Madrid and the Fonds Regionale d'Art Contemporain de Picardie, among others, and from private collections such as the Studiolo Rivi. The drawings on display range from Felice Giani's travel notebooks to those of

Lorenzo Mattotti, from Piranesi's etchings to Thayaht's Novecento, from Morandi to Fontana and Fautrier, from the Carteles of Cuban cinema to the drawings of the first Italian animated film 'The Rose of Baghdad', up to the contemporary artists on show in Cantiere Disegno.

Simone Massi is considered one of the greatest animators at international level today. Born in 1970, he draws exclusively by hand with an original technique of oil pastels spread on paper and then scratched with drypoint and other engraving tools, where dark black and white are the predominant colours and weave a fluid and contemplative movement. His animation is pure poetry with

which he narrates a world made of clouds and hands, lyricism and resistance, love of nature and the memory of rural civilisation. With more than 800 awards won at major national and foreign festivals to his name, including a David di Donatello and four Nastri d'Argento, his films are considered to be some of the most important in contemporary animation, so much so that in 2012, the Venice Film Festival asked him to create the festival's theme tune and posters until 2016. Cartoon Club dedicates an exhibition to him that spans his entire production with images from short films, illustrations, posters, and the animated feature 'Invelle', winner of the Carlo Lizzani Prize in the Orizzonti section at the 80th Venice International Film Festival (2023).

FRIDAY 5 JULY 2024
RIMINI, TEMPIO MALATESTA
**NARRATED EVENING VISITS
TO THE CATHEDRAL BASILICA -
TEMPIO MALATESTIANO
LA CAPPELLA DEGLI ANGELI
MUSICANTI. LODE ALLA
GLORIA DI DIO**

The series of narrated visits organised by the Diocese of Rimini opens on Notte Rosa, with art historian Michela Cesarini and the accompaniment of music and song, to admire the beauty and explore some aspects of one of the most important monuments of the Italian Renaissance.

The splendid bas-reliefs sculpted in the Malatesta Temple by Agostino di Duccio in the 15th century depict sophisticated angelic figures playing musical instruments. Angels are spirits who live in the presence of God, worship Him and serve His will, as messengers to mankind, and music is a privileged means of communication between earth and heaven. In the "Chapel of the Musician Angels", in particular, the angels play all kinds of musical instruments: strings, percussion and wind. Prominent among the latter are the trumpets, the brass section, whose ringing sound attracts the attention of the faithful. With Michela Cesarini (Discover Rimini) and the 4 Ottoni musical quartet formed by Luigi Zardi and Marco Tampieri (Trumpet), Andrea Pompili (Bass Trombone) and Luca Braghieri (Tenor Trombone and Euphonium).

Time: 9 pm.

MUSEO DELLA CITTÀ "LUIGI TONINI" VIA TONINI 1

In the year that marks the important centenary of the opening of the Pinacoteca di Rimini, Museo della Città' celebrates a milestone that only enhances its vocation as an exhibition to tell the story of the city's history, offering visitors wonders and curiosities to see and learn about. In April 2024, the Museo della Città inaugurated its new exhibition halls from the early Middle Ages to the 15th century. This is a new narrative itinerary to rediscover treasures such as the sculptures from the lost churches of the early Christian and mediaeval ages, the precious frescoes and panels from the 14th century in Rimini, and masterpieces from the 15th century such as the Malatesta medals by Matteo de' Pasti, the extraordinary Pietà by Giovanni Bellini, and the large panel painting by Ghirlandaio. This new section joins the others that tell the story of Rimini from prehistoric times to the contemporary age: from the archaeological finds of the Surgeon's House to the pictorial experience of 17th-century Romagna in the canvases of

Cagnacci, Centino and Guercino, and to the 20th century by René Gruau, and the poetry of Filippo de Pisis

FELLINI MUSEUM

Described by the New York Times as 'fantastic, sumptuous and bizarre', the Fellini Museum is the largest museum in the world dedicated to a filmmaker: 2 indoor venues (a 15th-century castle and an 18th-century palace covering more than 2,500 square metres) and an open-air space, almost 5 hours of films, over 30 installations, a constant flow of images and sounds to immerse oneself in Fellini's cinema and discover the power, poetry and magic of the most imitated, admired and awarded director of the 20th century. Inaugurated in 2021 and listed by the Mibac as one of the great national cultural heritage projects, with its experimental solutions it goes beyond the simple exhibition, creating a unique combination of multimedia installations and the atmosphere of monumental spaces and the outdoor square where Fellini's cinema becomes an experience. 2024, the year that marks the 70th anniversary of La Strada, the first Oscar, the worldwide consecration of Fellini and, with him, of Giulia Masina, who died 30 years ago this year, is the perfect opportunity to visit this large museum and rediscover the talent and creativity of its protagonists also through exhibitions and conferences.

DOMUS DEL CHIRURGO

This exceptional archaeological site offers a glimpse into 2000 years of history. Located on the northern edge of Ariminum, it

preserves the mosaics and plasterwork of the house and surgery of a doctor of oriental origin, who practised in the 3rd century AD. A fire destroyed the site, but sealed a part of the house and the exceptional surgical instruments under the rubble. Next are the remains of the rich palace decorated with multi-colour mosaics and the necropolis.

THE ARCHAEOLOGICAL AREA OF TEATRO GALLI PIAZZA CAVOUR

A cross-section of ancient and modern Rimini, from the 4th century B.C. to the 19th century, lies beneath the Theatre. Excavations conducted during the reconstruction of the theatre have gifted the city valuable pages of history connected to one of the blocks looking onto the medieval square. The Roman way of living can be traced here: from the first houses made of wood and clay, to the homes of the imperial age, embellished with mosaics, marble and frescoes.

VISITOR CENTER RIMINI ROMANA CORSO D'AUGUSTO 235

A multimedia and interactive itinerary that leads into the discovery of *Ariminum*, offering the unique experience of reliving its history accompanied by an exceptional guide, Julius Caesar in person, who gathered his soldiers in the forum in Rimini in 49 B.C. after crossing the Rubicon, making the phrase *Alea iacta est* immortal and changing the course of history. Located in the deconsecrated church of Santa Maria ad Nives, the Visitor Centre is a 'magnifying glass' on the area's cultural attractions, ideal for an initial introduction to the many cultural itineraries in ancient Rimini, a true Caput Viarum. The visitor centre is also a tourist information office (IAT) and the meeting

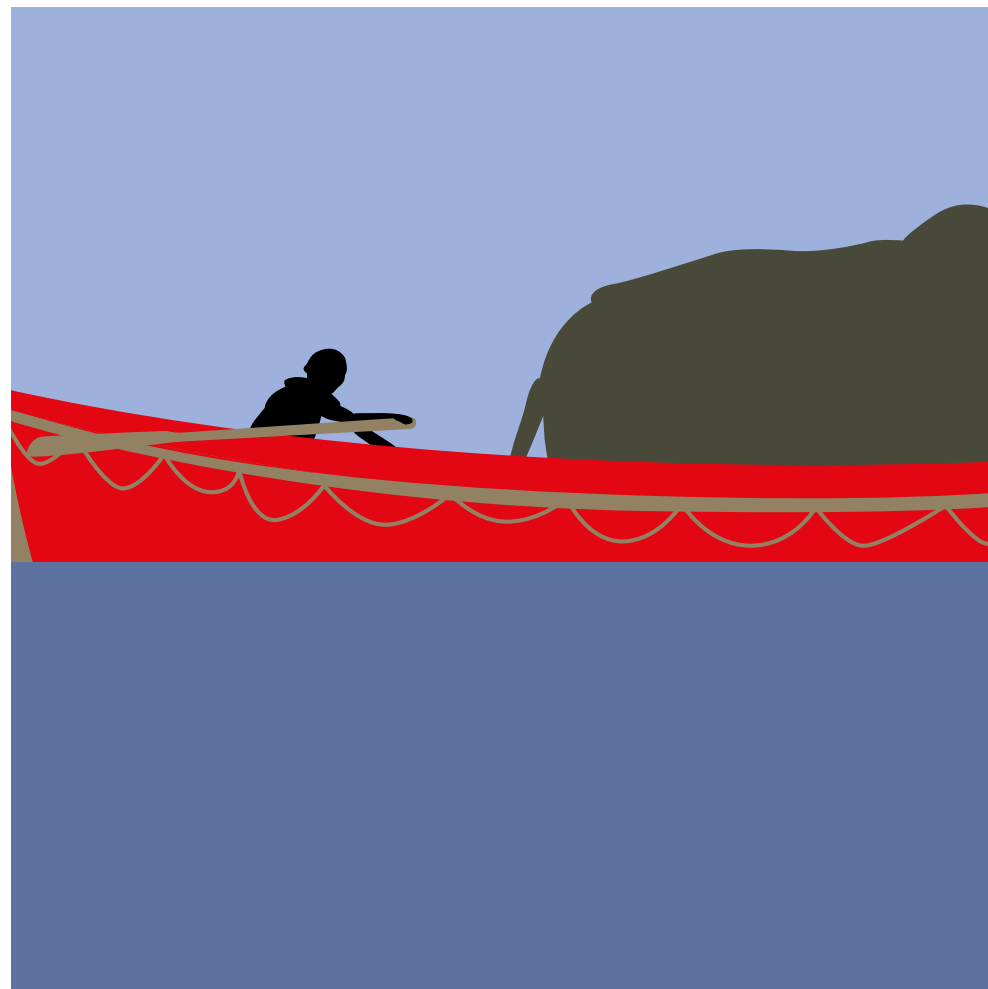

point for guided tours organised by Visit Rimini, the company in charge of promoting tourism in the municipality of Rimini.

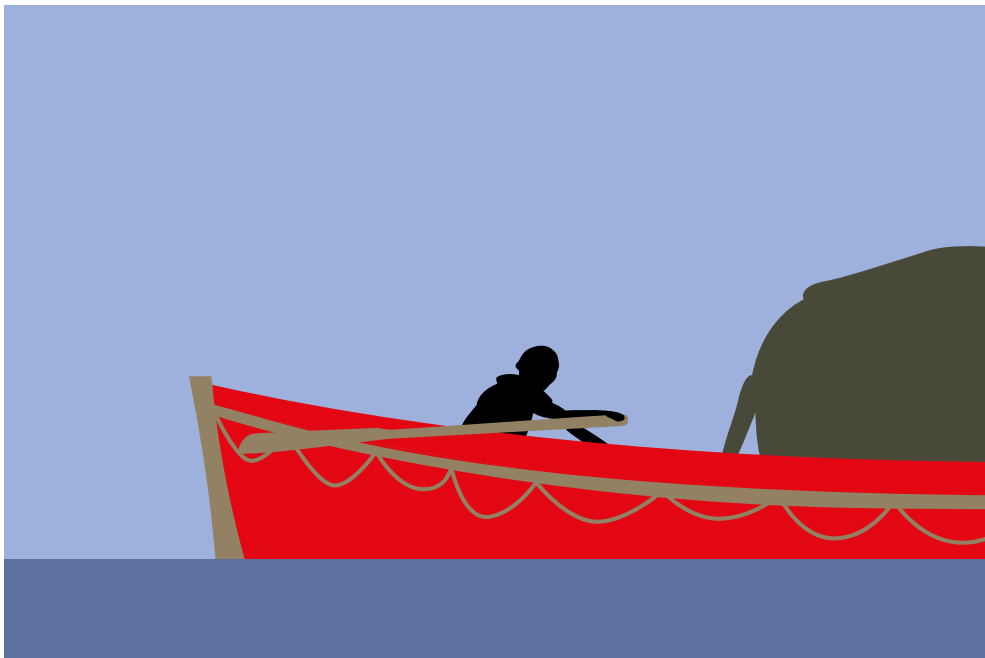

THE NEW SEA PARK

and open-air gyms. Designed by the Miralles-Tagliabue studio of Barcelona, the Parco del Mare, the infrastructure that is changing the face of Rimini's waterfront by freeing it from vehicle traffic and transforming it into a wooden promenade close to the sandy shore, winding among the iconic 'functional sardines', green areas, inclusive playgrounds and ornamental fountains, spaces dedicated to physical activity and wellness, and the long cycle path connecting Torre Pedrera to Miramare, is making progress.

BORGO SAN GIULIANO

2024 is the perfect year to visit **Borgo San Giuliano**, which celebrates its famous 'Festa de' Borg' this year, as it does every other even-numbered year in September. The atmosphere that makes this small 'rive gauche', connected to the city by Ponte di Tiberio, unique is filled with poetry and charm. Founded around the year one thousand, it was the old fishermen's quarter and one only has to walk through its narrow alleys, seeing low houses, pastel-coloured walls, flowered balconies and colourful murals to realise this. The walk is peaceful (the area is pedestrian) and you can still feel that anarchic, creative spirit that characterised its inhabitants. This district is also an ideal place to enjoy an aperitif and the good food offered by its many characteristic restaurants and taverns. And 2024 has brought three new murals to the alleys of this village, all inspired by Fellini's films: one more reason for a sentimental encounter with this distinctive corner of the city.
