ALL YEAR ROUND RIMINI, VIA L. TONINI 1 AND PIAZZA FERRARI CITY MUSEUM AND THE SURGEON'S HOUSE

The Surgeon's House and the City Museum are a great way to visit the archaeological site in Piazza Ferrari, where the surgeon's house was discovered, containing the largest collection of Roman surgical equipment that has survived to this day, kept in the nearby City Museum. Beginning with the archaeological section, the museum tells the story of Rimini through all the stages of civilisation. The medieval and modern section houses works from the many religious buildings suppressed between the 18th and 19th centuries. The Museum offers the thrill of discovering Malatesta Rimini through the paintings of the 14th century Rimini school, the works of Agostino di

Duccio and Ghirlandaio, and the 17th century Romagnolo paintings in the canvases of Cagnacci, Centino and Guercino. In July, the masterpiece by Venetian master Giovanni Bellini "Pietà" will return to the Museum, after being on tour in London and Berlin since October.

Entrance: € 7 full price, € 5 reduced
