## ALL YEAR ROUND RIMINI, PIAZZA MALATESTA, CASTEL SISMONDO FM - FELLINI MUSEUM

The Fellini Museum is the place where you can meet and rediscover the inimitable universe of Federico Fellini, a Museum of the imagination that interprets the director's cinema not as a finished work in itself, but as the key to "everything can be imagined". A museum spread over three spaces: Castel Sismondo, the large urban area of Piazza Malatesta with green parts, arenas for shows and artistic installations and Palazzo del Fulgor, where the historic cinema is located on the ground floor, while the upper floors are spaces devoted to information, study and research with the Digital Archive, the room of words, the Cinemino and the Convivio, while other Fellinian visions alternate with one another on the third floor.
